

# TeaP 2022 – Program Changes and Withdrawn Contributions

March 23, 2022

This document includes all changes to the program that reached us after the publication of the downloadable PDF. You will find the most up-to-date schedule in the online version of the program (<http://psychlab.uni-koeln.de/teap-program/>) as well as in the virtual conference venue on MeetAnyWay (<https://meetanyway.com/events/teap-2022-conference/>).

## Changes to talks

| Day     | Time    | Room           | Presenter | Title  | Note   |
|---------|---------|----------------|-----------|--|--|
| Monday  | 9.45am  | Pine Hall      | Wagemans  | Disentangling individuals' aesthetic preferences for order and complexity: A parametric, multi-dimensional approach  | The new presenter is Van Geert.  |
|         | 10.30am | Lavender Room  | Kurdi     | The prospect of long-term implicit attitude change: Tests of spontaneous recovery and reinstatement                  | A recording will be played; the author will be available for discussion at 2.30pm in the Posters & Coffee section. |
|         | 10.30am | Pine Hall      | Wagemans  | Colour and contour features convey emotions in abstract visual artworks  | The new presenter is Damiano.  |
|         | 10.30am | Pear Odeum     | Frame     | Evaluation of simulated recognition aids for human sensemaking in applied surveillance scenarios                     | The talk is now scheduled for 11.30am.   |
|         | 5.15.pm | Pine Hall      | Jacobsen  | Do Internalized Social Norms and Expertise Influence how Subpopulations Appreciate Tattoo Aesthetics?                | The new presenter is Weiler.   |
| Tuesday | 4.45pm  | Sapphire Court | Blask     | D-Psy-FAIR: A curation standard enabling a sustainable and high-quality documentation of psychological research data | The new first author and presenter is Müller.  |

|           |        |                 |        |  |  |
|-----------|--------|-----------------|--------|--|--|
| Wednesday | 9.15am | Pear Odeum      | Bury   | The influence of gravity on perceived travel distance in virtual reality | The new presenter is Herpers.                          |
|           | 4.45pm | Sunshine Saloon | Haugen | Aha-experiences in childhood   | The talk has now two presenters, Haugen and Prenevost. |

## Changes to posters and no-data posters

| Day       | Time   | Keyword                       | Presenter | Title  | Note  |
|-----------|--------|-------------------------------|-----------|--|---|
| Monday    | 2.30am | Action and cognitive control  | Wenke     | The impact of intention, outcome frequency, and outcome valence on illusions of control  | The new presenter is Blech.   |
|           | 2.30am | Applied psychology            | Maciosek  | Multisensory descriptions in online shops: Effects on brand attitude, perceived tangibility and buying intention                 | The new presenter is Nuszbaum   |
|           | 2.30am | Social cognition and behavior | Götz      | Follow my lead! Influence of follower's reliability on leader's goal persistence in a joint goal-setting paradigm                | The new presenter is Fröber.  |
| Tuesday   | 2.30pm | Action                        | Mück      | Narcissism and error processing: Variations of admiration and rivalry with the error-related negativity and the error positivity | The author cannot be present. If you have any questions, please send the author an email.         |
|           | 2.30pm | Action                        | Muth      | Can self-relevance modulate temporal binding?  | The poster will be presented on Weds. in the "Sense of agency" poster group.                      |
| Wednesday | 2.30pm | No-data poster                | Küth      | The impact of intention, outcome frequency, and outcome valence on illusions of control  | The poster will be presented on Monday in the "Learning and educational psychology" poster group. |

## Other program changes

| Day       | Time   | Event                                | Organizer                               | Note  |
|-----------|--------|--------------------------------------|---|---|
| Wednesday | 5.30pm | WoMP virtual spring website workshop | Women of Mathematical Psychology (WoMP) | The event was falsely announced for 5.30pm. As daylight savings has already started in the US, the workshop will start at 4.30pm CET. |

## Withdrawn talks

| Day       | Time    | Room             | Presenter           | Title   |
|-----------|---------|------------------|---------------------|---|
| Monday    | 8.30am  | Amber Auditorium | Schnepf             | Reassessing unconscious priming of numbers: Insights from reaction times, EEG and fMRI                        |
|           | 8.30am  | Sapphire Court   | Hanning             | Occipital transcranial magnetic stimulation (TMS) reduces presaccadic attention                               |
|           | 9.15am  | Sunshine Saloon  | Antolin             | Self-focused attention on social anxiety: A naturalistic eye-tracking investigation                           |
|           | 10.45am | Sapphire Court   | Kühnel              | Self-generated vs. instructed strategies – strategy use in a change blindness study                           |
|           | 11.30am | Pear Odeum       | Su                  | Automatic pain monitoring through facial expressions: A deep learning approach                                |
|           | 4.45pm  | Azure Lounge     | Haase               | Unrealistic optimism is not quite what it seems when people are actually pessimistic about everyone else      |
| Tuesday   | 8.30am  | Azure Lounge     | Fiedler             | Tracing cognitive processes of decision making with multiple sources of information: An eye-tracking approach |
|           | 8.45am  | Azure Lounge     | Schulte-Mecklenbeck | Focus on adjustment in anchoring research   |
|           | 9.00am  | Azure Lounge     | Wulff               | Movement tracking of cognitive processes: Disentangling trajectory curvature and response time                |
|           | 9.15am  | Azure Lounge     | Rahal               | Telling more about "telling more than we can know": Inferences from mouse tracking and introspective reports  |
|           | 9.30am  | Azure Lounge     | Frame               | Joint eye and mouse tracking in categorizing (a)typical exemplars   |
|           | 11.45am | Azure Lounge     | Johnson             | Using EEG to inform models of decision making   |
|           | 4.00pm  | Chestnut Chamber | Lukas               | On the automaticity of language and instruction   |
|           | 4.45pm  | Pear Odeum       | Mohanathanasan      | Measuring listening effort in adverse listening conditions  |
|           | 4.45pm  | Mauve Atrium     | Kubik               | Test-potentiated new learning in tertiary education: On the role of experimental design and episodic memory   |
| Wednesday | 10.30am | Azure Lounge     | Mieth               | The effect of cognitive load on cooperation and moral punishment  |

|         |                |         |   |
|---------|----------------|---------|---|
| 10.45am | Azure Lounge   | Klümper | Do powerful situations overwhelm the potential to show moral courage?<br>The function of personality and emotions in weak and strong situations |
| 11.45am | Sapphire Court | Schäfer | How singing in an online choir affects psycho-physiological variables   |

## Withdrawn posters and no-data posters

| Day       | Time   | Keyword                      | Presenter | Title  |
|-----------|--------|------------------------------|-----------|--|
| Monday    | 2.30pm | Action and cognitive control | Bröring   | The impact of intention, outcome frequency, and outcome valence on illusions of control  |
|           | 2.30pm | Applied psychology           | Habarta   | Sven-e, a chatbot against social exclusion   |
|           | 2.30pm | Emotions and perception      | Saalwirth | Emotion recognition in relation to chronotype  |
| Tuesday   | 2.30pm | Dual tasking                 | Hahne     | Eine präregistrierte Onlinestudie zu interindividuellen Unterschieden in der Multitaskingleistung: Die Rolle von Arbeitsgedächtniskapazität, Intelligenz und räumlichem Vorstellungsvermögen |
|           | 2.30pm | Dual tasking                 | Stefani   | Dual-task interference – depending on stimulus or effector or both?  |
|           | 2.30pm | Embodied cognition           | Kracht    | Increasing or decreasing? Evidence for a connection between imagery and the motor system in 3- and 5-year-old children   |
|           | 2.30pm | Embodied cognition           | Kühne     | Making the wolf bigger than he is: No evidence of semantic priming of numerosity   |
| Wednesday | 2.30pm | Sense of agency              | Neszmélyi | Who did that? Symmetrical source monitoring errors for performed and observed actions  |
|           | 2.30pm | No-data poster               | Dorn      | The biased AI: How physicians react to social bias in an explainable AI-decision support system  |
|           | 2.30pm | No-data poster               | Jost      | The effect of internal and external visualization of rotation on postural stability  |
|           | 2.30pm | No-data poster               | Kupresak  | A time-based learning analytics approach to support work-related e-learning  |
|           | 2.30pm | No-data poster               | Marx, A.  | Emotional contagion in dyadic online video conferences – a new methodological approach   |

---

2.30pm

No-data poster

Pettit

Investigating the effects of stress on decision making through the lens of cognitive neuroscience

---
